

Press Release

DANISH YACHTS TO SHOWCASE AEROSPEED 18, AT DUBAI INTERNATIONAL BOAT SHOW

Danish Yachts is to showcase the launch in the Middle East of the new high speed, luxury AeroSpeed 18, the 'SuperCar of the Seas', at Dubai International Boat Show. This superboat exemplifies performance and quality.

The AeroSpeed 18 is specifically suited to the Middle Eastern market, with the combination deep-V planing hull shape and water jet drives. This ensures that the shallow draft can work efficiently with the dynamic nature of the coastline, without compromise to performance or handling.

Inspired by performance and luxury of modern supercars, AeroSpeed 18 incorporates the unrivalled quality craftsmanship from the Danish Yachts' specialists, with speed and performance. This modern superboat, from the drawing board of Rainsford Mann Design, is designed to be either a tender to a superyacht or a stand-alone day boat.

Announcing at DIBS, is the partnership between Danish Yachts, Rainsford Mann Design and Quintessentially to produce the exclusive Quintessentially AeroSpeed. This is represented by models and a futuristic display on the stand, highlighting AeroSpeed 18's supercar characteristics. Example renderings of the unique flexible interior and customisation of this high speed, luxurious superboat are featured in the new brochure, available from the stand.

Press Release

About to be handed over from the shipyard in Skagen, Denmark is the 38m high-speed carbon superyacht – the AeroCruiser 38 II (116) designed by Espen Øino. Totally unique in her class, this dayboat features a number of visionary concepts in terms of light and space, at the same time providing spectacular performance and unequalled luxury. Further examples of Espen Øino's designs are also on the stand. Danish Yachts is also delighted to announce the World Premiere of the AeroCruiser 38m in Monaco in May.

Danish Yachts is a world leader in top quality superyacht build, specialising in carbon construction. Located in the North of Denmark, the shipyard boasts some incredible, yet diverse projects from sailing yachts to high-tech speed-driven motor yachts.

Danish Yachts is privately managed and financed and is committed to building modern vessels and superyachts to the highest standards, combining the traditional skills of craftsmanship with modern technology, at the same time respecting nature and the environment throughout the build and life of each vessel.

With a unique and distinctive presentation, the Danish Yachts' stand is certainly worth a visit for anyone interested in superyachts and exclusive luxury. Danish Yachts can be found on the Superyacht Boulevard stand number CHC-09 at the Dubai International Boat Show.
